

EXFOLIANT

A & E Corrector

Target & Prevent

sound bite: "Bye-bye, blemishes."

Tinted spot treatment with clarifying hydroxy acids targets pore-clogging debris while camouflaging blemishes, scarring, and discoloration.

Salicylic acid, lactic acid, clay, and botanical extracts remove pore-clogging debris to help prevent future breakouts. Use daily for a clearer, smoother, and healthier-looking complexion.

what does it do?

Removes pore-clogging debris

Targets blemishes to help prevent future breakouts

Helps balance oil production

Improves appearance of blemishes, scarring & discoloration

directions

Apply as a spot treatment onto affected areas.

key ingredients

Salicylic Acid	Refines texture, clears congested pores & helps control excess oil
Cinnamon Bark	Known for antiseptic benefits while providing anti-inflammatory properties
Bentonite	Helps remove toxins from skin & promotes skin renewal
Sulfur	Eliminates blemish-causing bacteria while clearing excess oil & surface debris
